

A virtual conference

“Cooperation and financing of the innovative and eco-friendly products in maritime sector”

A virtual Conference will be organized for small and medium enterprises, innovators, business support institutions and research organizations in the scope of Interreg ADRION project ECO-NautiNET to discuss the hot topics in the present period, concerning innovative solutions and finance needed for the new market products of SMEs in the ADRION region.

Dates of the conference are **23rd and 24th of June 2020** starting with opening session at 10 am CET, and the entire conference will be organized on the platform created during the ECO-NautiNET project. In the conference, audio-visual material will be presented in several sessions:

1. Research topics and opportunities for collaboration with the research institutions
2. Marketing of the innovative products and ideas presented by enterprises present at the ECO-NautiNET platform
3. Economy in crisis: Measures and possibilities for finance in the period after the epidemic crisis

Participants will be able to view all materials uploaded to the platform, including short video presentations, materials on innovative products, projects implemented in the ADRION region and wider Mediterranean area, live events with representatives of local, regional and EU government bodies, to discuss the opportunities in economy and research.

Visit the ECO-NautiNET platform and view the latest news on the Conference and how to apply: <http://econautinet.fsb.hr/>

All users registered to the platform will be enrolled in the Conference. All presentations and materials are provided in English.
