Shipyard Split – Launching of the motor yacht Katina

In the Brodosplit’s Naval & Special Vessels Shipyard, on 27th March 2015, was launched Katina, the 60-meter twin-screw motor yacht. Katina is a luxury yacht intended for nautical tourism, built for the company BS Star Shipping Inc, the latter owned by Brodosplit Line Ltd. The yacht was built under survey and for the class of Croatian Register of Shipping. Hull and superstructure is of shipbuilding steel and wheelhouse of aluminium alloy. Spacious saloon on the main deck can accommodate 35 persons. The yacht having a crew of 10 members and six double berth cabins for 12 VIP passengers will sail in Mediterranean and Caribbean seas. The fuel stores permit a range of 4000 sea miles.

Brodosplit Shipyard and Diesel Engine Factory is a member of DIV Group. Based on a wide experience Brodosplit nowadays offers a variety of products, here to mention a few. The shipyard developed a novel concept of the hatch coverless container feeder vessel, as well as a variety of chemical tankers, characterised by high energy efficiency. Brodosplit is active in offshore and wind turbines technology, car and passenger ferries. The Naval program includes coastal patrol vessels, frigates, submarines, logistic support vessels, landing ships, search- and rescue vessels. As a MAN-licensee Brodosplit is developing designs of ships which incorporate slow speed two stroke dual fuel (LNG/HFO) Diesel engines, aiming to reduce polluting emission.
